

SEIF MOHSEN

01206661737 | s.mohsen2389@nu.edu.eg | linkedin.com/in/saif-mohsen-026265360

PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Biomedical Informatics with comprehensive hands-on background in full-stack development, networking protocols, and security analysis. Currently expanding offensive security capabilities through DEPI's Infrastructure & Security (Vulnerability Analyst & Penetration Tester) track. Highly analytical and adaptive, seeking a cybersecurity internship to secure infrastructure and mitigate vulnerabilities in real-world environments.

TECHNICAL SKILLS

Cybersecurity & Networking: Kali Linux, Nmap, Vulnerability Analysis, Network Scanning & Enumeration, TCP/IP, IP Addressing, Routing & Switching, Cisco Packet Tracer, VMware

Programming Languages: C++, Python, Java, JavaScript, PHP

Web & Mobile Frameworks: Django, Django REST Framework (DRF), React Native, Expo, HTML, CSS, WordPress

Databases & Tools: MySQL, Git, GitHub, Visual Studio Code

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Time Management, Adaptability

CERTIFICATIONS & TRAINING

Infrastructure & Security – Vulnerability Analyst and Penetration Tester — DEPI (*In Progress*)

Cisco Certified Network Associate (CCNA) — Cisco Networking Academy (*Completed*)

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer Intern · Elsewedy Company

2024 (4 Months)

- Designed and implemented full-stack web applications, integrating responsive user interfaces with scalable server-side business logic.
- Collaborated with cross-functional teams to streamline database connectivity and optimize data exchange pipelines.
- Resolved critical bug fixes and maintained codebase performance across multiple web solutions.

Web Developer Intern · ATM Group Company

2025 (4 Months)

- Configured, customized, and deployed fully functional business websites tailored to client requirements using WordPress.
- Optimized site performance, page load efficiency, and responsive mobile rendering across multiple corporate portals.
- Implemented foundational security updates, plugin hardening, and theme optimizations to protect client assets.

PROJECTS

Healthcare Ecosystem Platform (Dental Clinic, Pharmacy & X-ray Lab)

University Team Project (2026)

- Architected an integrated multi-platform healthcare system connecting clinical, pharmaceutical, and diagnostic workflows.
- Developed secure REST APIs using Django REST Framework and built cross-platform mobile app interfaces with React Native and Expo.
- Managed version control, code merging, and team collaboration via Git and GitHub.
- Technologies:** React Native, Django, Django REST Framework, Git, GitHub

Network Design & Configuration (CCNA Lab)

Personal Project (2026)

- Designed and simulated enterprise-grade LAN and WAN network topologies using Cisco Packet Tracer.
- Configured routers, switches, static/dynamic routing protocols, and subnetting structures to ensure fault-tolerant connectivity.
- **Technologies:** Cisco Packet Tracer, TCP/IP, Routing Protocols

E-Commerce Web Application

University Project (2024)

- Developed a fully responsive e-commerce platform interface focusing on modern UI design principles and cross-browser compatibility.
- **Technologies:** HTML, CSS, Responsive Design

EDUCATION

Nile University

Expected Graduation: 2027

Bachelor of Science (B.Sc.) in Computer Science — Specialization: Biomedical Informatics

LANGUAGES

Arabic: Native **English:** Intermediate (B2)
